The solid Democracy.

Democratic members of the Legislature must understand that when they come together to settle the gubernatorial question they are not to "think of thinking for themselves at all." All the thinking will have been done for them in advance, in fact has been done. They will be expected to step up and take the fodder provided for them, or hear a lively cracking of the lash.

Transfers Recerded.

Three deeds of trust and the following conveyances of real estate were admitted to record yesterday in the office of Recorder Hook:

A deed made August 15, 1889, by Thomas Wilson and Florence Schwert-feger and husband, to Alexander Hoptonial Company of \$220 for lots Nos. 1, 2, 3, 4, 5, 6, 7, 8 and,9 in square No. 31, in 'that part of the city laid off the will be expected to step up and take the fodder provided for them, or hear a lively cracking of the lash.

Our observation has led to the conclusion that Democratic members of the present Legislature would rather violate the Constitution and all the laws of right than hear the lash crack about

A Noble Benefaction. Manual training is making its way in

this country, and men of means are giv- Cuar. ing it its impetus. Mr. A. J. Drexel, the noted banker, is perfecting plans to found such a school in Philadelphia for boys and girls. The former will receive their instruction at night, the latter during the day. The institution will be thoroughly equipped and solldly founded, the estimated cost being \$1,500,000.

Mr. Drexel will leave no prouder

monument than this, and probably no other part of his wealth will give him more satisfaction. Every such practical benefaction goes far to reconcile the very poor to the wealth of the very rich.

At that time a certain matter was under consideration and one of the members of the committee suggested that it might be well to have the cpinion of City Soliditor White before taking definite action. Dr. Campbell was reported as saying in reply to this suggestion, that the opinion of the Solicitor did not amount to much, etc. Dr. Campbell states that he had no inintention of casting any reflection whatever on Colonel White's ability. What he meant was, that in view of the manner in which Council had ordered certain of Health Officer Garrison's bills paid, on which the Solicitor had given the committee his opinion, that it was evident to him (Dr. Campbell) that Council had not much regard for the Solicitor's views. As for himself, his views were in direct accord with those of Colonel White and in his opinion, were worthy of consideration. certain matter was under consideration

A Woman's Discovery.

"Another wonderful discovery has been made and that too, by a lady in this county. Disease fastened its clutches upon her, and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking the first dose that she slept all night, and with one bottle has been miraculously cured.
